

Special Education Services

How we partner with schools and districts:

Coaching and Modeling

- Model best practices to implement co-teaching
- Support teachers and leaders using Tier 1 curriculum
- Provide feedback for teachers and leaders to drive student success
- Plan practices for co-teachers and school leaders
- Support for system-level directors and support staff

Professional Development

- Provide paraprofessional training for effective support of special needs students
- Facilitate training on state and federal standards for teachers and leaders
- Develop instructional strategies development for teachers
- Develop data to drive success of students with special needs for teachers and leaders
- Create individual growth plans for teachers and leaders

Program Design and Development

- Develop district guidelines for MTSS and referring students for testing
- Support for district directors of special education
- Create systems to manage special education students' progress
- Design a continuum of services for districts comprised of different school sizes
- Prepare for department of education monitoring and compliance

Student Tutorials

- Provide small-group and one-on-one Instruction for students preparing for state assessments
- Provide support to students preparing to take an alternate assessment
- Guide teachers in preparing materials for student tutorials
